Santa Monica Bay Audubon Society (SMBAS) invites the community to take a stroll through the Malibu Lagoon to observe some of the unique birds that travel through the area. SMBAS was founded in 1978 and since then they have made it a tradition to host monthly field trips on the fourth Sunday of every month. The Malibu Lagoon is where Malibu Creek meets the Pacific Ocean and SMBAS is eager to get the public involved in their monthly field trips.

Lucien Plauzoles has been a member of SMBAS for 26 years and was a member of the Board for 15 years. Serving as President, Vice President, Conservation Chair, and Program Chair. Plauzoles explained he will be leading the walk on Sunday along with a number of other local experienced birders and naturalists.

“Our field trips start with a quick observation about the site, the distribution of bird lists pertaining to the site, and quick instructions as need to use binoculars," said Plauzoles. "The group then walks to various view sites that are particularly good for seeing a number of species, and of course observe birds." The walk gives the community an opportunity to explore the

New City Attorney begins work

Lane Dilg has officially begun her tenure as City Attorney and the local resident said she is ready for the challenges of working in a city like Santa Monica.

Dilg was hired in June following the retirement of longtime City Attorney Marsha Moutrie. She formerly served as Senior Counsel to UCLA, spent four years as an Assistant United States Attorney in the United States Attorney’s Central District Office in California and served as Counsel to the United States Senate Committee on the Judiciary. Her experience also includes time as a civil litigator at the American Civil Liberties Union Foundation and Susman Godfrey, LLP.

She said there are differences when representing institutions over individuals. “As a litigator, I acted primarily as an advocate," she said. "My role was to represent my client’s interests fiercely against competing interests. As an attorney for large public institutions, I spend more time as an advisor. I spend my days ensuring fair process and helping clients to solve problems ethically, creatively, and effectively.”

What’s Up Westside

Saturday, August 26

Cardboard Yacht Regatta
6th annual Cardboard Yacht Regatta! At home, build your own cardboard yacht to seat two people, and race across the pool. $15 per yacht. All ages. Spectators free. 6:30 - 9:30 p.m. Annenberg Community Beach House, 415 PCH.

Discover The Real Santa Monica
Walk along with a Santa Monica Conservancy docent and explore the fascinating history of Santa Monica. The two-hour tours are every Saturday at 10 a.m. departing from Hostelling International at 1436 Second Street. For reservations: dwt@smconservancy.org or by phone at (310) 496-3146. $10 per person. $5 for Santa Monica or L.A. Conservancy members.

Back-to-School Ice Cream Social
Play carnival games, eat ice cream, and connect to the library! Ages 4 - 10. Fairview Branch Library, 2101 Ocean Park Blvd, 4 - 5 p.m.

Santa Monica Rep Play Reading: The Sign in Sidney Brustein’s Window
In the second of a three-part, monthly series of play readings at the Main Library, Santa Monica Rep performs Lorraine Hansberry’s second and final play about an unsuccessful New York artist named Sidney, who struggles to navigate the rolling political issues of the day, his troubled marriage and strained relationships with his contemporaries. Directed by Tanya White. Seating is limited, and on a first arrival basis. Late seating is not permitted until a suitable break in the performance. Early arrival is recommended. 2 - 4:15 p.m., Main Library, 601 Santa Monica Blvd.

Collagraph Portraits with Shannon Freshwater
Participants will use cardboard and paper to collage together a printing plate based on a loved one or imagined character. After building the plate, each participant will have a chance to print their image. 11 a.m. - 1 p.m. Cost: $5 Register at https://apm.activecommunities.com/santarmoniacommerce/Activity_Sear ch/59079 or call (310) 458-2239.

SMPL at the Beach
They’re packing up the books and heading back to the shore for more fun in the sun with SMPL at the Beach, our seaside pop-up library! Join them at Dorothy Green Park (where Ocean Park Blvd. ends at the beach) for a fun-filled day of beach reads, beach games, and special surprises. The first 50 visitors will receive a limited edition SMPL at the Beach giveaway. 10 a.m. - 3:30 p.m.

Sunday, August 27

12th Annual Jazz on the Lawn Concert Series
The 12th annual Jazz on the Lawn summer concert series presents lively, family-friendly concerts for all to dance, picnic, relax and enjoy live music along with rotating food and dessert trucks. Gandara Park, 1819 Stewart St, 5 - 7 p.m.

Local mall company helping shoppers avoid hot car tragedies

By Lea Yamashiro
Special to the Daily Press

"Hot cars" have become a pressing issue this summer.

Over 40 dogs and 30 children nationwide have died from heatstroke after being left inside sweltering vehicles, and the numbers are rising with each heatwave.

Macerich, a Santa Monica-based real-estate company and owner of the Santa Monica Place, has stepped in to pass on an important message about the problem to shoppers through the company's media platforms.

The outreach followed a persuasive appeal from People for the Ethical Treatment of Animals (PETA) to have Macerich join the "Hot Cars Kill" movement and the company has used their commercial advantage to spread awareness at malls across the country.

The ads display on digital signs and remind drivers how quickly temperatures can rise to dangerous levels.

PETA has been following the issue - what they call "hot cars kill" - closely this summer. They have posted updates, tweets, and other notifications on their media platforms, informing viewers how easily and accidentally a person could make a deadly mistake by leaving an animal or child in a hot car, especially in parking lots. They said they were looking to reach out further and find a way to make the issue even more heard and visible.

PETA's corporate affairs department strives to work cooperatively with companies, mostly behind the scenes. They value their longstanding relationship with Macerich, and worked directly with executives at Macerich to create a series of digital ads with reminders about the possibly deadly effects of hot cars, which are currently being broadcasted at dozens of malls owned by Macerich.

"We started the initiative with Macerich via email, and set up a phone call," explained PETA's corporate liaison Stephanie Shaw. "When they learned that animals and children can succumb to heatstroke in just minutes when they're left in a parked car, even on a warm day, even in the shade, even with the windows cracked, we were very excited and not surprised to see that Macerich was very willing to step up to try to help prevent 2017 from becoming a record year for deaths from heatstroke, by running a public service announcement.

PETA said people do not realize the dangers of leaving children and dogs in cars for even as little time as it takes to run a quick errand. Stephanie explained how PETA is grateful that Macerich has decided to portray these potentially life-saving images and messages in their malls, bringing awareness to shoppers.

PETA also wants to emphasize the importance of speaking up when something does not seem right. They encourage anyone who sees a child or animal trapped in a parked car to take the car's license plate and model, to have the owner paged over an intercom if it is in a store or mall parking lot, to make sure someone is standing by the vehicle to keep watch while help is found, and to even call law enforcement if necessary.

PETA said that on a 90-degree day, interior temperatures can soar to as high as 119 degrees in 20 minutes. Dogs and children trapped inside parked cars can succumb to heatstroke within minutes, even if a car isn't parked in direct sunlight. Dogs showing signs of heatstroke should be taken into the shade, given water to drink, cooled down with damp towels placed on their heads and chests, or immersed in tepid (not ice-cold) water. A veterinarian should be called immediately.

"We are thrilled by Macerich's decision, and we are certain that this will inspire even more companies to post signs to warn drivers not to leave anyone unattended," Shaw said.

Pancakes for a cause

AS THE SUMMER DRAWS TO A CLOSE, the Santa Monica Lions are stepping into high gear with the 63rd Annual Pancake Breakfast just around the corner on Saturday, September 16 from 7:30 – 11:30 a.m. Once again it will be held at the SM Boys & Girls Club, 1238 Lincoln Blvd. in Santa Monica. For the bargain price of $5 you get scrambled eggs, sausage, milk, coffee, tea, orange juice, and of course, pancakes. There will be even more fun activities for children this year, including Princess Belle, who will be reading to them. For the adults we have a great raffle planned. Please join us for this event – our only fundraising event of the year – as it is a great way to start off your Saturday. All money raised goes to support local charities, provide scholarships to high school and SMC students, and support the Lions efforts toward vision, the environment, hunger, diabetes and pediatric cancer.

One of the great things about being a member of a service club is getting to know other service clubs, and their members, that do good work in the community. After you have built up your energy to tackle your day with a hearty pancake breakfast, think of ending your day with the fun and barbecue provided by the SM Kiwanis at their Texas Hold’em Poker Tournament from 5 - 10 p.m. also on Saturday, the 16th. It is being held at the Elks Lodge, 1040 Pico Blvd. in Santa Monica. Advanced tickets are $84 or $94 at the door.

Our new student speaker topic has been announced – What Roles Do Integrity and Civility Play in Today’s Society? The speech contests will start in February, the exact date to be announced. Carole Mullaney will continue as the student speaker chair and you can reach her at caroleemullaney66@gmail.com with any questions. The competition is open to student in grades 9 through 12, regardless if you have participated before. Remember that more than $40,000 in scholarship money is available to the winner.

If you are interested in learning more about Lions or coming to a meeting, please give me a call at (310) 442-9513 or email me at santamonicalions@gmail.com. Our meetings are on Thursdays from 12:15 – 1:30 PM. Our September will be on 9/7 and 9/21 at El Cholo.

Don’t forget, our Pancake Breakfast in Saturday, September 16. We hope to see you there!

For more information contact SUSAN at 310-442-9513 or santamonicalions@gmail.com. Follow us on Facebook – https://www.facebook.com/smlions.

Letters to the Editor can be submitted to letters@smdp.com. Receipt of a letter does not guarantee publication and all content is published at the discretion of the paper. All letters and guest editorials are subject to editing for space and content. All submissions must include the author’s name, address and phone number for the purposes of verification.
**Educator Spotlight**

Send comments to editor@smdp.com

The Educator Spotlight recognizes those who contribute to the education of local students. Educators were chosen by consulting with site PTA, student government organizations and staff. Educators were chosen for their reputations with students, staff, parents and the community.

**Kristin Jurewicz**  
**John Adams Middle School**

Kristin Jurewicz started out as a substitute teacher in Ann Arbor, Michigan before moving to Santa Monica. She’s now been with SMMUSD for 14 years and has always been an 8th grade science teacher at John Adams. Jurewicz values the science education at JAMS for multiple reasons. She values the block schedule because it allows students the time to engage in labs and hands-on science activities, while giving the students time to analyze their results. She also finds the science magnet program to be an asset. One of her favorite 8th grade science projects is when the students make Mousetrap cars. Building the car requires students to apply the physics concepts they’ve learned in class.

Jurewicz Speaks  
This is my second year as the science magnet coordinator. I enjoy working with the board to keep our science program current with the ever changing world. Through the science magnet program students have many different options of extracurricular activities that are science related. While in this program students have a chance to visit Catalina Island, Yosemite and Astrocamp, along with family camping trips to Morro Bay and Joshua Tree. And I love working with my colleagues in the science dept. I am excited about implementing NGSS (Next Generation Science Standards) over the next few years. The standards have more opportunity to go in depth with topics to hopefully build a life-long understanding of science. My goal as a teacher are to engage students in a way that they want to continue in a science field once they leave middle school. I like working with middle school students because they are starting to gain their own voice. We can have lively discussions about space exploration and nuclear power. I feel appreciated from the students when they show interest in what we are doing in class. I like it when they take control of their education.

upper area of the Lagoon, slowly making their way to the beach. SMBAS explained there are a number of experienced observers who share their knowledge during the walk. For the past two years a field trip consists of 37 visitors, many of them are surprised to see rare species protected under the Endangered Species Act, now brooding for the first time in 70 years. Plauzoles said, “The lowest species counts for the Lagoon walk are in the low forties. The highest counts are in the low 70’s.”

The best time to view birds is from September through April, as summer is usually a slow time. However, this summer Malibu and Santa Monica received visits from the Western Snowy Plover. “Discovering that a beach is not just a place for sun tanning and surfing is beautifully demonstrated at this monthly walk,” said Plauzoles.

The SMBAS will host their walk on Sunday, August 27. Adult walk begins at 8:30 a.m., beginners and experienced visitors are welcomed for the 2-3 hour walk. Species range from 40 in June to 60 – 75 species during migrations and winter. The children and parents walk begin at 10 a.m., leaders are experienced with children. SMBAS has a ample supply of binoculars for everyone. For more information you can visit https://smbasblog.com/.

marina@smdp.com
However, Dilg said her entire career has been guided by the same set of values. "I can't point to a particular moment when I chose my career path," she said. "I was raised with strong values – to do justice, love mercy, and walk humbly. I am fortunate that my career has followed naturally from those core commitments."

She said her role in Santa Monica would be to provide ethical and legal guidance to the city’s leadership. "The City Charter calls on the City Attorney to advise the City Council and City officers; to represent the City and its officers in actions and proceedings; to prepare ordinances; and to prosecute criminal cases," she said. "More generally, I view the City Attorney as an ethical compass and a proactive partner to help the City Council and City officers serve the community ethically and effectively."

In addition to her work providing advice and service inside the city, she said the position also has a communications aspect. "The City Attorney’s Office also has an obligation to communicate with the community about the benefits that our work brings – whether that work is protecting tenants and consumer rights, prosecuting crimes, or representing the City in litigation," she said. "We are always looking for ways to engage with the community regarding the work that we do."

Dilg is a Santa Monica resident and said she was eager to be part of a cutting-edge city that has a strong reputation. "The Santa Monica City Attorney’s Office has a reputation for first-rate legal work and high integrity," she said. "I intend to continue that. I am also supportive of the Office’s ongoing commitments to provide forward-looking, insightful legal advice, to represent the City vigorously in litigation and enforcement proceedings, and to work proactively to protect the rights of consumers, tenants, and community members."

Dilg said she understands the reality of working in the city. "Santa Monica is a complex political environment, which is a testament to its vibrant citizenry. That means that I won’t please everyone all the time," she said. "It’s unfortunate, but it’s part of the job."

**WEEKEND EDITION, AUGUST 26-27, 2017**

- Visit us online at www.smdp.com
Today's Birthday (Aug. 26)

The word that describes your spirit this solar return is decisiveness. You stop asking questions and decide. The energy of life will carry you spontaneously to new places. Money comes to your family in November and May. You'll close deals, support causes and love deeply. March brings a bright star to your personal life. Aries and Leo adore you. Your lucky numbers are 9, 30, 2, 28 and 40.

Aries (March 21-April 19)
You've built an idea of what you can accomplish and, frankly, so have they. Now you're both expecting that you'll meet it, which you won't. With invisible forces at your back, you'll surpass it.

Taurus (April 20-May 20)
An eager tourist can get to know a city better than those who call it home. Thinking you know is the enemy of actually finding out. Go to a place where you're new, or be new in an old place.

Gemini (May 21-June 21)
Reasonable fluctuations of income, affection, mood, etc. are a natural part of life. You'll be unflappable in the face of such fluctuations, which is impressive. And those with similar strong characters will take notice.

Cancer (June 22-July 22)
It's said that you shouldn't sell yourself on someone based on potential alone. This applies to yourself as well. Believe that you're capable of more, but demand proof, too. It's time to get a little tough on yourself.

Leo (July 23-Aug. 22)
Steer clear of the slippery slope. It comes in the form of a person who is irresistibly needy. One small thing will lead to another until you've sunk deep into the drama. The whole thing can be avoided from the get-go.

Virgo (Aug. 23-Sept. 22)
The sun in your sign is like a gas card handed from doting parents to children in college. It's assistance. It's fuel. It will help out. It can be used for much else than the intended purpose and that's the beauty of it.

Libra (Sept. 23-Oct. 23)
Don't be more concerned with upholding an image of yourself than you are with growing. How you look to the world will change with the times. So go on and risk appearing foolish. Dare to be a newbie for the sake of learning.

Scorpio (Oct. 24-Nov. 21)
You've different standards, hopes, dreams and expectations than anyone else around you. It's why you really won't be happy if you conform to the norm. Go your own way.

Sagittarius (Nov. 22-Dec. 21)
You're in charge of making time for all those special things you like to do. Don't let others pressure you into scheduling what suits them but not you. Put yourself on the books first.

Capricorn (Dec. 22-Jan. 19)
Your personal energy is high and your creative wheels are turning. You will give of yourself and let others need you rather than needing them or concerning yourself with their approval.

Aquarius (Jan. 20-Feb. 18)
Fear keeps you safe. It's your friend. You can feel balanced, alive, in love, productive and at the same time fearful, because nothing in life is certain. The fear is a healthy sign that this is real and you're not delusional.

Pisces (Feb. 19-March 20)
Emotion that flows naturally out of a situation is the stuff of life. However, beware of those who use emotion as a tool to attract attention or make themselves more important.
